Cyber attack is the latest buzzword in the shipping industry. Our lawyers are joined by industry experts to consider what ship managers, owners and insurers need to be aware of to ensure that you are prepared.

DAMROD apply the best practices from military defensive operations to improve information security and defend against cyber attack.

Navigant's Incident Response team includes former members of the intelligence community, private security firms and technology experts. Together, they bring the latest perspectives and extensive experience managing sophisticated cyber threats.
